Form1

Lower Limit Upper Limit

make a guess Attempts - The number is -

Appearance after generating new random number (Play button enabled)

A screenshot of a Windows application window titled "Form1". The window contains several UI elements: a "Lower Limit" label followed by a text box containing "0", an "Upper Limit" label followed by a text box containing "10", and a "Generate Random Number" button. Below these, there is a "make a guess" label followed by a text box containing "5", a "Play" button, and a status area that reads "Attempts 1 The number is too small". The "Play" button is highlighted with a blue border, indicating it is the active element.

Appearance after incorrect guess

A screenshot of the same Windows application window titled "Form1". In this state, the "Lower Limit" text box now contains "0" and has a blue border. The "make a guess" text box contains "6". The "Play" button is now disabled and has a grey background. The status area reads "Attempts 3 The number is correct". The "Generate Random Number" button remains visible and enabled.

Appearance after a correct guess (The play button is disabled)
